

WALIUR R. SUN

Franklin Square, NY 11010 | (516) 233-4127 | waliurrahmansun003@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio website](#)

Education

The City College of New York (CUNY)

Expected Dec 2027

BS in Computer Science

New York, NY

Relevant Coursework: Data Structures, OS, Database Systems, Web Dev, Cybersecurity Fundamentals, Cloud Computing, Software Engineering, Linear Algebra, Probability & Statistics.

Projects

Conversion King - 3-Tier Multi-AZ Web Infrastructure (Terraform, AWS, Python)

[GitHub](#)

- Architected a resilient 3-tier AWS cloud infrastructure in **Terraform**, deploying an **Application Load Balancer**, multi-AZ **Auto Scaling Groups (EC2)**, and **ElastiCache Redis** to cut database read latency by **75%**.
- Enforced layered security group chaining across public, private app, and database subnets with egress routed strictly via **NAT Gateways**, eliminating public IP exposure on backend compute.

Kubernetes Fortress - Hardened EKS Infrastructure (Terraform, Kubernetes, AWS)

[GitHub](#)

- Codified a zero-trust **Amazon EKS cluster** in **Terraform**, isolating worker node groups across private subnets to ensure **zero worker node exposure** to public ingress.
- Implemented **IAM Roles for Service Accounts (IRSA)** through **OIDC identity federation**, eliminating 100% of static AWS credentials within containerized pod workloads.
- Configured dedicated namespace security boundaries, **EKS control plane audit logging** to CloudWatch, and background daemon supervisor wrappers to prevent pod crash loops.

DevSecOps Ingress Pipeline - Automated CI/CD & Security Gate (Jenkins, Docker, Terraform)

[GitHub](#)

- Engineered an automated **Jenkins CI/CD pipeline** integrating **Trivy container scanning**, enforcing quality gates that block 100% of **HIGH/CRITICAL CVEs** prior to registry pushes.
- Automated container image builds and immutable digest publishing to private **Amazon ECR** repositories with **KMS at-rest encryption** and automated image scanning.
- Codified continuous delivery steps using modular **Terraform**, reducing deployment cycle duration by **70%** while preventing configuration drift across staging and production environments.

PROFESSIONAL EXPERIENCE

Public Partnerships | PPL | Remote / NY Home Health Aide (Full-Time)

Feb 2025 – Present

- Provide high-trust care while managing critical documentation and HIPAA compliance.
- Coordinate patient care with medical professionals and maintain strict data confidentiality.

Skills

Cloud & Infrastructure: AWS (EC2, S3, IAM, VPC, Lambda, RDS, DynamoDB, CloudFront, EKS, ECS, CloudWatch, KMS, WAF), Terraform, Linux, Docker, Kubernetes, Helm.

Cloud Security: IAM least privilege, Zero Trust, GuardDuty, Security Hub, CloudTrail, KMS, WAF, network segmentation, incident response automation, vulnerability scanning.

DevOps & DevSecOps: Git, GitHub, GitHub Actions, Jenkins, CI/CD, Trivy, Checkov, tfsec, Infrastructure as Code scanning

Programming & Scripting: Python, Bash, HCL, YAML, SQL.

Monitoring & Troubleshooting: CloudWatch, VPC Flow Logs, OpenSearch, Athena, logging, observability, DNS, HTTP/HTTPS, load balancing, fault isolation.

AI Cloud: Amazon Bedrock, Bedrock Guardrails, Amazon Transcribe, Amazon Rekognition, AI workload security.

Certifications

Cloud & Infrastructure: AWS Certified Solutions Architect – Associate, AWS Certified Cloud Practitioner, HashiCorp Certified: Terraform Associate, Certificate of Cloud Security Knowledge (CCSK v5).

Cybersecurity: CompTIA Security+, ISC2 Certified in Cybersecurity (CC), Google Cybersecurity Professional Certificate, arcX Practitioner-Level Threat Intelligence Analyst.

IT & Programming: Google IT Support Professional Certificate, PCEP — Certified Entry-Level Python Programmer.
